Metal Roofing

Where Aesthetics Meets Durability and Function

From lightweight standing seam systems to custom sheet metal solutions, we provide comprehensive metal options tailored to Florida's unique needs.

Why Metal?

Exceptional Wind Resistance: Our two in-house metal shops are certified to produce materials engineered to withstand hurricane-force winds and Florida's most severe weather conditions.

Unmatched Longevity: Metal roofs are engineered to last 40+ years, significantly outlasting traditional roofing materials. This exceptional lifespan translates to fewer replacements, reduced long-term costs, and peace of mind knowing your investment is protected for decades.

Superior Weather Performance: Standing up to Florida's intense sun, saltwater corrosion, heavy rainfall, and coastal humidity, metal roofing maintains its structural integrity and appearance year after year.

Energy Efficiency & Sustainability: Reflective metal reduces summer cooling costs while remaining 100% recyclable – meeting green building standards and sustainability goals.

Aesthetic Versatility: From sleek, modern standing seam profiles to custom architectural sheet metal solutions, metal roofing offers unlimited design possibilities. Available in multiple colors, finishes, and styles, it enhances curb appeal while maintaining maximum durability, a rare combination that can increase property value.

Proud installers of:

Our Expertise

With decades of experience, we specialize in delivering comprehensive roofing services tailored specifically to the unique needs of Florida condominium properties.

Our full line of systems and services include:

- **Modified Bitumen:** Combining durability with flexibility to protect against the harshest weather conditions.
- **Metal Roofing & Sheet Metal:** Our offerings extend from aesthetic improvements to functional durability, including two metal shops certified to produce metals capable of withstanding high wind conditions.
- **Single-Ply:** Cost-effective option for achieving waterproofing integrity and energy efficiency.
- **Tile & Slate:** For those seeking an aesthetic appeal without compromising on durability.
- **Roof Coatings:** Extend the life of your existing roof with a high-quality, protective roof coating.
- **Service Maintenance Programs:** Regular maintenance is key to extending the lifespan of your roof. Our comprehensive service maintenance programs are designed to identify and fix issues before they become costly problems.
- **Emergency Repairs:** Unexpected issues can arise, but our team is on standby to provide swift and efficient emergency repair and service solutions.

Every roof we install stands as a testament to our commitment to quality, surviving and thriving throughout the entire duration of its warranty period.
